## **SUTTON VOLUNTEER FIRE DEPT.**

---

**Year 1950**

The Sutton Fire Dept. had seven calls. We lost three houses in two fires. The home of Arthur E. Davis and two buildings at Camp Penacook. The A. E. Davis place has been rebuilt and one of the buildings at Camp Penacook will be repaired and the other rebuilt in the spring. Our town has again been fortunate in not losing taxable property. The dept. secured 7 ladders in 1950 totaling 165 feet.

Sincerely

**VERNON F. WEST, Chief**

Sutton Vol. Fire Dept.

## **FOREST FIRE PREVENTION PAYS DIVIDENDS**

---

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perversness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgement, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total loss of 6090.6 burned acres with a loss of \$63,949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that **EVERYONE MUST:-**

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.

2. Use good judgment in burning and have enough equipment and assistance to keep fire under control at all times.

3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.

4. Make certain that all equipment used in the woods is in good condition.

His success depends entirely upon public reaction to his appeals. He does his part — the rest depends upon YOU and

YOUR compliance with burning requirements

YOUR care with YOUR fires and YOUR smoking and

YOUR care of motive equipment you use in the woods.

It all aids, materially, in reaching the desired goal, the  
**PREVENTION OF FOREST FIRES — because PRE-  
VENTION PAYS DIVIDENDS!**

Number of local fires, 2

Number of acres burned,  $\frac{1}{2}$

Number of permits issued, 63

## REPORT OF THE SUTTON PLANNING BOARD

---

### *Water for Fire Protection*

In regard to the problem of providing water for fire protection, the Planning Board thought that the money voted for this objective should be spent where it would protect the most property.

There is a hydrant at Sutton Mills, and a Lake at North Sutton and Blaisdell Lake for that community. At some seasons of the year water may be draughted from Lane River at South Sutton. In times of low water and during the winter months, when the ice coats the rocks, it would be extremely difficult to do this.

It was therefore decided to install a dry hydrant on the bridge at South Sutton, making the water in Lane River available at all seasons.

The pipe was purchased and a brass steamer connection was secured from Laconia. The brass connection was brazed to the iron pipe at Bradford. When the material was secured the season had progressed to the time when help was not available for the installation. The material is on hand and when the season warms up we hope to have the dry hydrant installed at South Sutton.

There has been no action on the part of the Building Committee; and there is not much that they can do in the near future. Building costs are high and there is every prospect that they will be higher. We know, however, that the present buildings cannot go on forever. Some of the towns in this area have begun appropriating money each year to be used for a future building. The law permits a school district to appropriate money each year up to one half of one percent of the assessed valuation of the district for a Capital Reserve Fund. I believe that any school district would be wise to set up a reserve fund. This money would be turned over to the Trustees of Trust Funds to draw interest until it was needed for construction purposes.

Last year was the best year we have had since I have been in Sutton and this year has been even better. We have two excellent experienced teachers and Mr. Bucklin is doing excellent work as a beginning teacher. We are very fortunate to have these teachers in Sutton. I hope that we will be able to keep them.

Early this summer it looked as though prices were going to level off and that the teacher supply would be better. The last two years we have been fortunate to have young men for the upper grade room. Unfortunately the Korean situation and a more severe draft bill is going to make the teacher supply very bad. The large majority of young men graduating from high school and college are going into the armed services or into the defense industry. Shortage of teachers means increased salaries. Already teachers' groups are asking for cost of living adjustments. In the cities they have been granted while most small towns are putting special articles in the warrant.

This is not a pleasant picture from the property owners' viewpoint. The new proposal for State Aid as made

by the State Department of Education to the Legislature, is not adequate. We should, at least, be having the amount of aid that we were getting in the years 1947-49. Fifty or a hundred years ago property was a fair measure of a man's ability to pay taxes. It isn't today by any means, and the burden should be eased by other forms of taxation rather than cutting down on our children's educational opportunities.

These are troubled times in which we live, but the moral fiber of American Democracy is strong. We will come through.

WILLIAM C. STERLING,  
*Superintendent of Schools*
